Project Blue Book

Dear Sir:

On the night of May 10, 1964, at 9:15 p.m., Eastern Daylight Saving Time, we were outdoors, stargazing at [redacted] in Warrensville Hts., Ohio, a suburb of Cleveland, when we saw an object in the southeastern sky slowly moving to the north across the eastern sky. It was white and gradually turned light green. The weather was dry, the sky was clear, and the temperature was about sixty-five degrees.

Charles [redacted], who first sighted the object, observed it through a 36X telescope. Under telescopic observation, it appeared as a rectangle, we later agreed that this was due to improper focusing of the telescope. The object appeared as a star to the naked eye. When it was first sighted, the UFO was at approximately 120 degrees from true North, and 30 degrees in elevation. When it disappeared, it was at 30 degrees from true North, and 35 degrees in elevation.

We timed its transit across the sky, it took four minutes, fifty-seven seconds. Because we had no accurate way of determining its size or distance, we could not even guess at its speed. It was as bright as a second magnitude star (our two comparison stars were Delta Cassiopeia and Beta Ursa Majoris).

In accordance Form FTD 164 July 61, we have tried to answer all the questions. The personal information section follows.

Name: [redacted]  
Address: [redacted]  
[redacted] Ohio, 44128  
Telephone: [redacted] Age: 16 Sex: Male

Name: [redacted]  
Address: [redacted]  
Warrensville Hts., Ohio, 44128  
Telephone: [redacted] Age: 11 Sex: Male

Although neither of us have had any special training which would make us qualified observers, I ([redacted]) have been an amateur astronomer for six years. We would appreciate you letting us know if this was a weather balloon or some natural object. Thank you for your time,

Yours Truly,

[redacted]  
[redacted]  
[redacted]

YOU - THE NUCLEUS OF SECURITY!

14 May 1964  
Cleveland, Ohio

June 2, 1964

Dear [REDACTED]

This is in response to your letter of May 14, 1964 in which you reported the sighting of an Unidentified Flying Object in the Cleveland, Ohio area on May 10, 1964.

You both observed Echo I which was south of the city at 120° elevation, moving northeast at the time of the sighting.

Sincerely,

MASTON M. JACKS  
Major, USAF  
Public Information Division
